

EXHIBIT A

GFI – DISCLOSURES

1. The January 27, 2015 Schedule 14D-9 of Jersey Partners, Inc. and Mr. Gooch's January 27, 2015 letters to GFI stockholders did not and do not represent the positions of the GFI Board or the Special Committee, but rather the views of the Management Defendants and JPI.
2. On January 30, 2015, after the CME Merger was not approved by the GFI stockholders, the Special Committee provided a resolution recommending five action steps for consideration by the full Board: (i) termination of the agreements related to the CME Merger, (ii) the signing of the tender agreement with BGC, (iii) satisfaction of the conditions to the BGC Offer (including the Board Control Condition), (iv) supplying the required disclosure schedules to BGC, and (v) taking other actions necessary to consummate a transaction with BGC. The Special Committee did not recommend or support a termination of the CME Merger without effecting the other action steps in support of the BGC tender offer. Neither Mr. Gooch nor Mr. Heffron concedes these matters. The Board held a vote only to terminate the agreements related to the CME Merger, and did not take up the Special Committee's full recommendation. The Special Committee members did not vote to terminate the agreements related to the CME Merger.
3. Also on January 30, 2015, GFI issued a press release announcing that the Board had determined to explore strategic alternatives. The Special Committee did not review or authorize that press release and did not agree that the Company should explore new strategic alternatives.

4. On February 2, 2015, GFI issued a press release stating that the GFI Board urges the GFI stockholders to take no action and not to tender into the BGC Offer but wait for the Board to conduct its strategic review. The press release further represented that the Board had reviewed the BGC Offer and that it contained provisions and conditions that made it highly unlikely to succeed in providing any value to stockholders. The Special Committee did not review or authorize the February 2, 2015 press release, and does not agree with the representations therein that the GFI stockholders should not tender into the BGC Offer or that the BGC Offer is highly unlikely to succeed.
